About Me

Full-stack web developer with experience in building responsive and scalable web applications using modern technologies such as **JavaScript, React, Node.js**, and the **MERN** stack. Skilled in front-end development, UI/UX design, and API integration with a strong foundation in problem-solving and clean code practices. Currently serving as **Head of Information Technology & Data Analytics** at IAESTE India LC JECRC, leading technical initiatives and managing digital infrastructure. A proactive learner with hands-on experience through **projects**, **internships**, **hackathons**, and leadership roles.

Skills

- **Web Development:** HTML, CSS, Tailwind, Bootstrap, React.js, Node.js, Express.js, Django
- **Programming Languages:** JavaScript, C++, Python, R, Java
- **Database Management:** MySQL, MongoDB
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Django
- **Version Control:** Git, GitHub, Postman, VS Code
- **Soft Skills:** Leadership, Communication, Problem-Solving, Team Collaboration

Education

B.Tech in Computer Science (AI/ML - Samatrix)

JECRC University, Jaipur, Rajasthan, India — 2023 - Present

Currently pursuing a B.Tech in Computer Science (AI/ML - Samatrix) at JECRC University, with a strong focus on web development and Machine Learning.

Secondary Education [Schooling]

Asian Public School, Sohna, Haryana, India — 2020 - 2022

Experience

Full-Stack Web Development Intern

IAESTE Burundi | Remote — June 2025 -July 2025

Selected for a global internship to build full-stack web applications using React.js, Node.js, APIs, and database systems; developed the official website for IAESTE Burundi while gaining international exposure to collaborative software development.

Data Analysis Intern

Samatrix Consulting Pvt. Ltd. | Remote — June 2025 - Jul 2025

Worked on projects in finance, healthcare, e-commerce, and sports, including stock risk modeling, A/B testing, queue optimization, and survival analysis. Gained hands-on experience in statistical methods, simulation, and visualization using Python and related libraries.

Head, Information Technology and Data Analytics

IAESTE India LC JECRC | On-Site — September 2025 – Present

Leading the Information Technology & Data Analytics Department at IAESTE India LC JECRC, managing a team responsible for maintaining the organization's website, digital infrastructure, and data systems. Oversee technical operations, coordinate development initiatives, and implement digital solutions to improve efficiency and strengthen the organization's online presence.

Junior Developer Intern

My AI Store / Remote — September 2025 – October 2025

Worked on automation and AI workflow development using n8n, designing and implementing agentic AI workflows to automate tasks and improve system efficiency. Contributed to building and optimizing automated pipelines, integrating APIs, and developing intelligent process flows to support internal operations and product development

Projects

Krishi Ai

Full stack Farming Support App

Krishi AI is a full-stack web application developed during a hackathon to support farmers with smart agricultural solutions. It provides AI-powered crop guidance, mandi price predictions, and access to reliable agricultural information through a user-friendly interface. Built using React.js, Node.js, Express.js, MySQL, and integrated machine learning models to deliver data-driven insights for better farming decisions.

Safelance

Freelancer Client payment App

Safelance is a secure freelance marketplace platform designed to connect clients and freelancers with a focus on trust, transparency, and data protection. Built with a React.js frontend. It utilizes MySQL for managing user data and transactions. The platform integrates Razorpay for secure and seamless payment processing, and features custom authentication and authorization logic to protect user accounts and project data.
